RECYCLING

1. Facility has an in-house recycling program currently in place.
2. Facility has a program in place to train all employees in their recycling/waste prevention program.

ENERGY & WATER CONSERVATION

3. Facility practices energy conservation (fluorescent light bulbs, light sensors, thermostat set-backs).
4. Facility minimizes water usage in planning landscape projects (xeriscaping).
5. Facility has low flush devices installed in bathrooms.

FOOD & BEVERAGE

6. Facility offers china service at all food and beverage functions.
7. Facility's food service uses reusable items (cloth, glass, ceramic) other than disposable items (styrofoam, plastic)
8. Facility donates left over food to a local food program, and/or is willing to work with a program for a client's event.

SLEEPING ROOMS

9. Facility has equipped staff to collect recycling from guest rooms.
10. A sign is placed in guest rooms asking guests to reuse towels and sheets.
11. Facility is willing to put in contracts that towels and bed linens will not be changed unless requested by event attendees.

PURCHASING

12. Facility regularly purchases reusable and durable products.
13. Facility donates, sells, or recycles old "durables" (furnishings, etc.)
