

SPEAKER BIOGRAPHY

Andy Hesselbach

Wind Farm Project Manager – We Energies

Andy Hesselbach is We Energies' (Wisconsin Electric Power Company) Wind Farm Project Manager. Andy has spent 18 years in the energy industry in positions ranging from engineering and power marketing to more recent work in the development, permitting, and construction of electric generating facilities. From 2001 to 2005 Andy worked for We Power LLC, an affiliate of We Energies, on the development of natural gas and coal generation projects. In 2005 he began his current position managing We Energies' wind generation program. His first challenge was the development, permitting, and construction of We Energies' 88 turbine Blue Sky Green Field wind project which is in its final stages of construction in east central Wisconsin. Recently, Andy adjusted his focus from completion of the Blue Sky Green Field project to the development of the next phases of We Energies' wind generation program.

Andy holds a BS in Industrial Engineering from the University of Wisconsin – Madison and a MBA from Marquette University. Andy is a registered Professional Engineer in the State of Wisconsin.
